

# IMAGE & DOCUMENT ARCHIVE

Image & Document Archive (*IDA*) is an archive or library system for storing and retrieving images and documents and making them available online.

It is designed for use by groups like **historical societies** or other groups who have collections of images and documents that they wish to make available to their members and/or the public.

*IDA* can be added to an existing website or we can provide a complete system with hosting.

**We can help you get your collection online quickly, easily and inexpensively!**

## IDA Key Features:

- allows cataloguing and display of **images, documents and genealogical information**
- **fully online**, can be accessed and managed from anywhere
- secure access for people authorised to manage the collection
- does not require proprietary software on the PC
- can be used from a **PC, Mac or Unix** device, or a **phone or tablet**
- can be integrated into an existing website or separately hosted
- unlimited number of images and documents
- images can include any watermark (small, large or none)
- **powerful searching** features or **simple search**
- **browse** feature to encourage browsing of the collection
- **slideshow** option
- **text overlay** feature for captions on maps or group photos etc
- screens are adjusted to suit viewing screen size
- facility for users to **report problems** or **comment on images** or provide additional information

- users can **send an email** to a friend about an image
- users can **order copies** of an image (if you choose to sell them)
- **links** from one image to another or to related documents or people
- **people database** to show genealogical info about people in images
- presents **random images** to prompt exploration of the collection
- **logging** of which assets are accessed
- can be linked to **NLA Trove** database (OAI-PMH) to make your collection much more widely available
- IDA shows your branding (examples are shown as a demo collection)
- customisation is possible to suit specific needs
- **low cost** option compared to other commercial offerings

View an example of IDA in use by Kurrajong-Comleroy Historical Society at [www.kurrajonghistory.org.au](http://www.kurrajonghistory.org.au)

We are a small local company, not some big multinational, so we can be responsive to any special requirements. You get to speak directly to the people who wrote the software and who use it.

If you have been considering how to handle your image collection and would like to put it online, or if you have a collection online already and you think it could be done better and cheaper, please get in touch for a no obligation consultation.
